Design Concept

My entire bathroom design is based on a modern luxury theme. Having a theme like this gives a lot of detailed selection and options for people to use the bathroom even more frequently during this time period, especially when individuals work from home. Giving particular treatment not only to adults, but also to children, allows them to spend their time in their tiny spaces of life to enjoy the toilet as well too.`

Design Visuals: Full Bathroom

This is the whole bathroom rendered view, where cove lighting and spot lights were used for the design to make the family in the house feel more at ease.

Design Visuals: Shower Area

Having an Acacia Evolution Acrylic freestanding bath tub in the area provides people a soothing atmosphere, and having a Castello Deck mount bath and Shower mixer with shower kits makes bathing easy for families with children.

Design Visuals: Toilet Area

This is the toilet area, which makes use of KASTELLO Close Coupled. Toilets situated on the back of the wall make it easier for individuals to urinate.

Design Visuals: Basin Area

This is the basin area
